The author is not even dead . . . yet! Better to gain 'know-how' than gold. But is a book worth \$799? An immodest 'yes'

New York City, NY - Sushi Zen Restaurant, Times Square - A statuesque, charming Senior Analyst for an Chicago-based investment journal magazine, showed me a remarkable sight on her laptop.

Incredible! But there it was. Imagine my astonishment when I saw used copies of my previous book *The Profit-Taker Breakthrough*; selling on www.amazon.com for the price of \$799.00.

Is it a joke? Is it clever merchandising? You tell me. Certainly I confess to a twinge of pride. I was flattered.

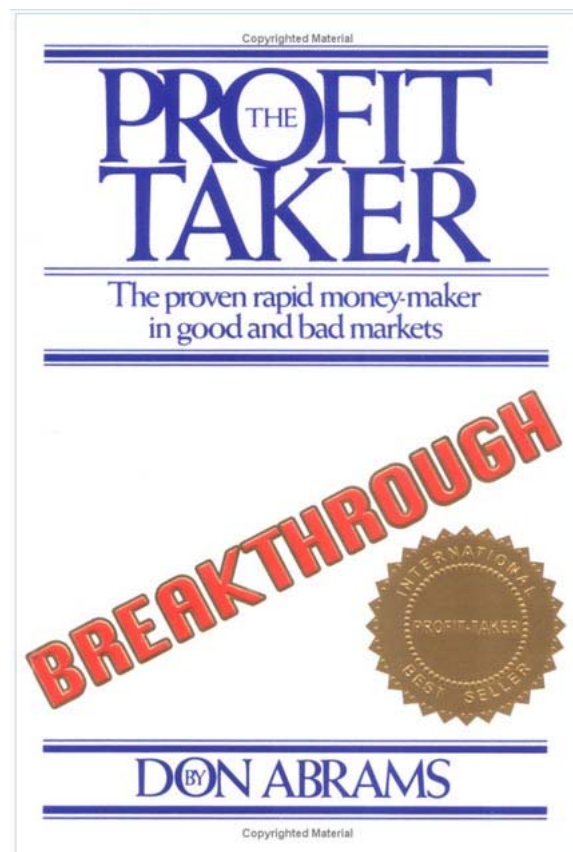

The 'Breakthrough' . . . the proven, rapid, money-maker in good and bad markets . . . is the detailed 'good news' text and workbook for Profit-Taker Strategies.

The two entrepreneurs book sellers are highly regarded five star dealers - Motor City Books of Michigan and The David Bean Books of California. Good luck to them!

I was enheartened as a writer when The Chicago Tribune headlined their review to my book with the "PROFIT- TAKER: SOLID ADVICE ON THE STOCK MARKET", but this is special. Selling my book at \$799!

Although I'm 78 years old, I'm still committed to living. They forgot I'm still breathing.

In fact, on my SCOREBOARD on www.profitmaker.info which is totally free and transparent, the annualized profits are registering up to 382%.

Like most authors, no doubt, I had a few new copies of my book lying around my study. So I added a current 2009 revision. Subsequently I placed them on www.Ebay.ca at the original price for the world to see.
